## EDUCATION

### ANANTRAO PAWAR COLLEGE OF ENGINEERING AND RESEARCH, PUNE

BE, INFORMATION TECHNOLOGY  
July 2023 | CGPA: 9.5

### GOVERNMENT POLYTECHNIC, AMRAVATI

DIPLOMA IN COMPUTER ENGINEERING

Sept 2020 | Percentage: 77.94

## SKILLS

- ReactJS
- Javascript
- Bootstrap
- Redux
- OOP
- Data Structures
- HTML
- CSS
- Axios
- React Router
- Github
- JIRA
- Postman
- Linux
- Browser Debugging
- RESTful APIs
- Unit Testing
- Performance Optimization
- State Management
- Responsive Web Design
- MUI (Material-UI)

## SOFT SKILLS

- Problem solving and Critical Thinking
- Teamwork
- Accountability
- Communication
- Adaptability
- Eagerness to Learn

## AWARDS

- **Star Award**  
Emerging Star Award for outstanding contributions and dedication.

## EXPERIENCE

### SOFTWARE ENGINEER LEVEL II | VMEDULIFE SOFTWARE

Nov 2024 - Present | Pune

VMEDULIFE.COM

- As a Software Engineer Level II at Vmedulife, a product-based company, I contributed to the development of an ERP-based modular campus management solution, enhancing academic operations. I integrated various payment gateways, including Razorpay, for seamless and secure transactions. Worked on various modules, focusing on dynamic report generation and printing features to improve administrative efficiency. Additionally, I followed a release-based process, developing and delivering new features for each release cycle.

**Tech Used:** ReactJS, JavaScript, React Router, Bootstrap, CSS, Rest API

### JR.SOFTWARE ENGINEER | NITYAOBJECT SOFTWARE SERVICES

Jul 2023 - Oct 2024 | Pune

NITYAHEALTH.COM

- As a Front-End Developer, I developed a health service web app from scratch using function-based ReactJS to manage online appointments between consultants and patients. The platform enables scheduling, manages patient data such as reports and prescriptions, and tracks payment histories. By creating this application, I improved the efficiency and user experience of interactions between healthcare providers and clients, delivering a responsive and intuitive interface that streamlined operations.

### EVENT MANAGEMENT APP

- Developed an event management web app that streamlines event scheduling and organization. The app features interactive UIs for creating and managing events, activities, vendors, and guest lists. It enhances user experience by providing efficient tools for coordinating all aspects of events, from scheduling to guest management.

**Tech Used:** ReactJS, JavaScript, React Router, Bootstrap, CSS, Rest API

### SOFTWARE ENGINEER INTERN | NITYAOBJECT SOFTWARE SERVICES

Feb 2023 - June 2023 | Pune

- Contributed to the development of a responsive health service app using ReactJS, focusing on reusable components for a consistent user experience. Integrated RESTful APIs for efficient data exchange and utilized Git/GitHub for version control. Tested API endpoints with Postman to ensure functionality and performance.

## CERTIFICATIONS

- Data Structures | Dec 2022 | University of California San Diego and offered through Coursera
- Oracle Autonomous Database Cloud 2021 Certified Specialist | Jan 2022 | Oracle University
- Oracle Cloud Infrastructure Foundations 2021 Certified Associate | Dec 2021 | Oracle University
